JORDAN'S

10,000 MANILA CHILDREN GET DAILY MEALS AT SCHOOL

MANILA, July 31.—More than ten thousand Manila school children each day of the school week eat a substantial lunch of soup, bread, and meat, cooked and served by the children themselves. The lunches cost them a standard price of one centavo per unit for each item on the bill of fare. For three centavos they are served with a meal, which, for actual sustaining qualities, cannot be equaled in any commercial restaurant in Manila for twenty times its cost to the children.

SOUTH SEA TRADE IS INCONSEQUENTIAL

(From Consul General George E. Anderson, Hongkong, China.)
Trade to and from the South Sea Islands is likely to be no great factor of the near future, according to the report of a Hongkong business man who has recently toured that part of the world with a view of developing trade through Hongkong.

Each public school in the city serves a midday lunch to the pupils attending that school, the meals being served at actual cost price of the materials used, and the cooking and serving of the lunches is one of the branches of the domestic science course, which every girl student must take. The marketing is arranged for daily by the committee of cooks, who are changed at stated intervals, and the income is made to correspond to the expenditures, with the exception of a small profit, which is applied to the purchase of fuel.

That part of the world. This lack of population and failure of what now exists not only restricts possible demand for foreign goods, but the population now existing is such as to demand little. Clothing is next to nothing, foreign foodstuffs other than rice are practically unknown, and knowledge of other goods is practically nil. Phosphate and Copra Output of the Islands.

BLACK BASS AT WAHIAWA

Last year the Wahiawa Water Co., Ltd., of which E. D. Tenney is president, imported a quantity of black bass spawn to stock the Wahiawa stream and reservoir with that desirable food fish.

Evidently the plan is a complete success, as the other day a five-pound specimen of the fish was pulled out. Quite a number of three-pound fellows have been caught, while, it is said, small fry black bass is in great abundance.

Labor Shortage—Shells Used for Money.

The exports of rubber, copra, coffee, cocoa, sago, and other tropical products are increasing and have reached a considerable volume. The labor situation in German New Guinea is similar to that in other islands, though the difficulty seems to lie more in the indisposition of the native to work on his native soil than to any actual deficiency in the supply. Labor is recruited from neighboring islands generally on short-term contracts, and nearly all the prominent planters have their own steamers for recruiting their employees. Demand for foreign goods is confined largely to strong American tobacco, the natives not appreciating their own product.

AN ENEMY OF YOUTH

Lack of Blood During Years of Growth Lays Foundation for Much Ill Health

Youth is the time to lay the foundation for health. Every boy and girl should have plenty of pure, red blood and strong nerves. With thin, impure blood, they start life with a handicap too great to win success and happiness. Pure, red blood means healthful growth, strong nerves, a clear brain and a good digestion. In a word pure blood is the foundation of health.

There is just one thing to do for these boys and girls—build up the blood with Dr. Williams' Pink Pills for Pale People. You can't afford to experiment with unproven remedies. Through neglect or wrong treatment anaemia gradually developed into the pernicious form, which is incurable. Dr. Williams' Pink Pills work directly on the blood, cleansing it and giving it just the elements which it lacks. As the pure blood goes everywhere, the entire body, every nerve, muscle and tissue, shares in the health-giving properties of the pills.

HEALANI CLUB GETS NEW BARGE AT LAST

There was joy unconfined among the members of the Healani Boat Club for this morning the steamer Wilhelmina safely landed the new racing barge that the club oarsmen have been waiting for so long. The six-

oared barge, which was built by Alf Rogers, of Alameda, the veteran builder of racing boats and shells, is a beauty, and drew the admiration of strengthening plasters. Chamberlain's club members and others who were at Pain Balm is cheaper and better. The dock to see it slung over the side. Dampen a piece of flannel with it and water as soon as it is thoroughly over will relieve the pain and soreness. For hauled to see that it is in no way safe by all dealers, Benson, Smith & Co., agents for Hawaii.
